Cue Response to Horizon Takeover Offer

Cue Energy Resources Limited (ASX:CUE) (**Cue**) notes the announcement made on 2 March 2026 by Horizon Oil Limited (Horizon) of its intention to make an off-market takeover offer to acquire all fully paid ordinary shares in Cue that Horizon does not already hold a relevant interest in (**Horizon Takeover Offer**). The Horizon Takeover Offer comprises of a proposed consideration of A\$0.008 in cash and 0.5625 fully paid ordinary Horizon shares for each Cue share.

The Cue Board has appointed an Independent Board Committee (**IBC**), consisting of its current independent directors, Peter Hood AO, Greg Bishop and Ric Malcolm, to evaluate and respond to the Horizon Takeover Offer. The IBC, together with its independent advisers, is currently assessing the proposed offer and will keep shareholders informed as appropriate.

Cue shareholders are advised not to take any action in relation to the Horizon Takeover Offer at this stage.

The Horizon Takeover Offer, when dispatched, is required to remain open for at least one month. The IBC will set out their views in relation to the proposed offer from Horizon in a target's statement, which will be sent to all Cue shareholders. Cue shareholders will receive the target's statement in sufficient time to consider their alternatives and make a decision prior to the close of the offer.

Various statements in this document may constitute statements relating to intentions, opinion, expectations, present and future operations, possible future events, and future financial prospects. Such statements are not statements of fact and are generally classified as forward-looking statements that involve unknown risks, expectations, uncertainties, variables, changes and other important factors that could cause those future matters to differ from the way or manner in which they are expressly or impliedly portrayed in this document. Some of the more important of these risks, expectations, uncertainties, variables, changes, and other factors are pricing and production levels from the properties in which the Company has interests, or will acquire interests, and the extent of the recoverable reserves at those properties. In addition, the Company has a number of exploration permits. Exploration for oil and gas is expensive, speculative and subject to a wide range of risks.

Individual investors should consider these matters in light of their personal circumstances (including financial and taxation affairs) and seek professional advice from their accountant, lawyer or other professional adviser as to the suitability for them of an investment in the Company.

Except as required by applicable law or the ASX Listing Rules, the Company does not make any representation or warranty, express or implied, as to the fairness, accuracy, completeness, correctness, likelihood of achievement or reasonableness of the information contained in this document and disclaims any obligation or undertaking to publicly update any forward-looking

statement or future financial prospects resulting from future events or new information. To the maximum extent permitted by law, none of the Company or its agents, directors, officers, employees, advisors, and consultants, nor any other person, accepts any liability, including, without limitation, any liability arising out of fault or negligence for any loss arising from the use of the information contained in this document.
